## HOTEL NESTLED IN A UNIQUE HISTORICAL SITE

Ideally located in the Languedoc Roussillon region at the crossroads of two major routes used since Antiquity, from the Atlantic seaboard to the Mediterranean and the Massif Central to Spain, the Hôtel de la Cité is an integral part of Carcassonne's heritage. In the heart of the Medieval Citadel, built on the site of the former Episcopal palace, this 5-star hotel is right next to the Saint-Nazaire Basilica and overlooks the lower town from the ramparts.

## EVOCATIVE ARCHITECTURE IN AN EXCEPTIONAL SITE

The beauty of the view over the City, its gardens and walls and the stones that have traversed the centuries. The welcome area and its lounges immerse you in mix of neogothic décor and the 20's year's atmosphere. The names of the suites – Suite Médiévale, Suite Néo-Gothique, for instance – evoke the site's fascinating past. Each decorative element recalls the building's deep roots in history. The pleasant odor of bees-wax polish mingles with the fragrance from the garden, a cool and tranquil place with centuries' old trees – pines, red cedar and other local species. The wellness area is nestled at the foot of the imposing Saint-Nazaire Basilica where you can find the uniquely beautiful swimming pool and its '5 mondes' SPA.

## CULINARY EXPERIENCE WITHIN CITADEL'S WALLS

"La Barbacane", the City's only starred restaurant, offers a large selection of dishes, all created with imagination and know-how in the most charming and elegant ambiance. Chef Jérôme Ryon and Head Pastry cook Régis Chanel have opted for a traditional cuisine revisited with elegance and subtlety.

"Le Jardin de l'Evêque", Summer's terrace restaurant has been designed in a modern decoration highlighting Nature and relax atmosphere that you can find in a garden. The menu offer iscreative, colorful and proposes the seasonal dishes of Jerome Ryon.
