A LOCATION EMBLEMATIC OF DIJON'S HERITAGE

This Haussmann-style building, dating 1884, is part of the city's cultural patrimony. Today a registered heritage site and architectural treasure, the Grand Hôtel La Cloche remains true to that tradition by offering the utmost in comfort and typical Dijon refinement.

THE RENAISSANCE OF THE GRAND HOTEL LA CLOCHE

With meticulous attention to detail and great inspiration, interior architect Frédéric Grosjean has succeeded in creating a hotel that is in keeping with its time period. Grand Hôtel La Cloche embodies the values of prestige and timelessness. In a unique partnership with the city, reproductions from the collections of the Musée des Beaux-Arts hang splendidly on its walls. The hotel pays tribute to Dijon-born artist Pompon with Richard Orlinski's statue « L'Ours Marchant » (The Walking Bear), nestled in the courtyard garden. The rooms, with their warm tones and rich textures, contribute to well-being and offer moments of pure relaxation. The atmosphere is one of ultimate chic and good living.

THE OPPORTUNITY TO DINE WITH NATURE

The restaurant Les Jardins By La Cloche offers a modern and enjoyable cuisine. Orchestrated by Master Restaurateur and Chef Aurélien Mauny, the menu evolves with the seasons and honours with success the abundance of fresh produce and flavours of Burgundy. The restaurant, situated beneath a large glass atrium overlooking the garden and terrace, is bathed in warm daylight.
